

The Future File Placeholder Description page

Hello again

Why bother even looking here..? But since you actually made the effort, we'll simply tell you this page is just a placeholder for a future addition to the <http://www.radiowrench.com/sonic> "sonic page".

Feel free to drop us a note using the Icon below, should you care to comment or add something. That's about it. Click the "return" or "back" selection on your web browser to exit from this page. The Table of Contents Icon below will also help get you through the available sonic server web pages.
